The inspection is not technically exhaustive. The Client is hereby warned that not all deficiencies will be revealed. The Client is advised more comprehensive inspections are available and the Client is encouraged to consider the merits of more comprehensive inspections. Baseline Inspections makes no representations as to compliance, infraction or breach of any building, plumbing, electrical or other code(s), zoning, land use or by-law(s) of municipal, regional, provincial or federal governments/statutes including, but not limited to, any/all environmental and conservation authorities, preservation and/or historical plans or flood plain areas.

Baseline Inspections may use the visible presence of mold to aid in its evaluation of the building itself. No claim is expressed or implied that all problems in the building will be discovered by the inspection.
- 3. Inspection Report.** The inspection report provided after the inspection is an opinion of the present condition of the building. The inspection report, issued by Baseline Inspections, is prepared with reasonable skill and care and is subject to the limitations contained herein. The inspection report is limited to the physical evidence that was visually accessible at the time of the inspection. Emphasis is placed on identifying major problems. While some minor problems may be noted, an all-inclusive list of deficiencies will not be provided.
